

Skydive Arizona Policy: Back-to-Back Loads

- If your team is hoping to do back-to-back loads, you are responsible for making it to the tram in good time.
- The tram will not wait for you, and your tickets may not be returned if you miss the load.
- You may need to arrange with your packers to deliver your rigs without the brakes and slider set for packing.
- You may have to forego dirt diving and using the mock-up.
